RX 669 S D-N.A and Level System

(Dino Level-up/ Game Progression)

What is XP (Experience Points) ?

General Idea : XP is Points awarded to the user/player for completing certain tasks in the Game.

XP is not in-Game Level, However Level is accumulation of XP Points.

NOTE :

10XP != Level 10

But

Level 10 = (10 Levels * 100XP) = 1000XP

Player/Dino Level (Range)			XP Needed for Each Level
0	-	10	100
10	-	20	200
20	-	30	300
30	-	40	400
40	-	50	500
50	-	60	600
60	-	70	700
70	-	80	800
80	-	90	900
90	-	100	1000

XP Points vs Dino Level Breakdown

Why and How to increase Dino Level

- Using NFT as Active Dino Character in game and playing with it will increase levels through XP.
- Higher Dino Level = Better Traits
- Dino Breeding can help gain better higher level Offspring.
- Trading and Selling Higher Level Dino's with better Traits increases NFT Value creating Community Trading Markets

D-N.A and XP Gain Factors

- Daily Login
- In-Game Objective with Character
- Game (Type) Played First Time
- Each Matches Played
- Total Matches Won
- Total Games Completed

D-N.A and XP Gain Factors (in Depth)

- Daily Login

Game/Account time must be synced with server time to prevent spoofing of Time by player.

Player will get 15XP and 100 JeetA Coin per login session, per day

One Login Session – 24hrs

Types of Login Time Sync

1. **Game Time Sync with Time Server**

Regardless of when the user Logs into the Game/Account, Only the **Login Date and Time** is taken into account.

Player Can login at 1:55PM Tonight and again at 12:00AM to reward the player with XP.

NOTE : Login Streak Resets, Player Again Starts from Day 1

2. **Game Time Sync with User Account Time**

Regardless of when the user Logs into the Game/Account, The **Last Login Date and Time** is Stored into the user ID.

Subsequent Logins in > or = 24Hrs from last login will Add/Stack towards the Last Login Date and Time to reward the XP.

NOTE : Login Streak Continues at/after 24Hr Mark after last login. if player hasn't logged in then the next 24Hr towards the account starts after they login.
